Subject: Tolls on highways

Dear Quinn,

I have been in favor of tolls since the inception of them. But with the big accident that happened at a toll both many years ago and then they were done away with them it has put a crimp in our pockets with high gasoline taxes. We have to pay tolls in all other states why can't we in Connecticut have out of staters do the same here. I would suggest the ticket at the beginning of I 84 or I 95 and then pay your toll when you get off the exits. It is less dangerous that way. It would increase the general fund or even the road fund where we would not have to rely on gasoline taxes being high.

Thank you for hearing me.
